

Heavy Duty Disposable Gloves

Powder-Free
Not Made with Natural Rubber Latex
Puncture Resistance

INDUSTRIAL

Features

- Effective barrier protection against punctures, chemicals, and oil
- Highly durable and resistant to rips, tears
- Better thickness and durability for mid / heavy-duty industry and laboratory use
- Excellent comfort fit and tactile sensitivity

Heavy Duty Disposable Gloves

Powder-Free | Not Made with Natural Rubber Latex | Puncture Resistance

Heavy duty nitrile disposable gloves stand as premium gloves that serve professional works. They are thicker than standard nitrile gloves and provide strong protection in heavy oil and chemical exposure environments such as automotive, manufacturing, gas station, laboratory, and hair dye.

Product Information

- Primary Material** : Acrylonitrile Butadiene Synthetic Rubber Latex
- Latex Protein Content** : Not Made with Natural Rubber Latex
- Color** : ●Black / ●Royal Blue / ●Mulberry
- Size** : Small, Medium, Large, Extra-Large, Double Extra-Large
- Design** : Ambidextrous, Textured Fingertips, Beaded Cuff
- Packing** : 100 Pieces per Dispenser, 10 Dispensers per Carton, (XL : 90pcs /Box)

Industrial

Chemical

General Use

Automotive

Physical Specifications

Palm (min.)	0.11 mm
Finger (min.)	0.15 mm
Length (min.)	240 mm (EN) / 230 mm (ASTM)
Size	Width (mm)
Extra-Small	≤80
Small	85±5
Medium	95±5
Large	105±5
Extra-large	115±5
Double Extra-Large	120±5

Physical Properties

Testing Method		Before Aging	After Aging
ASTM	Elongation	500%	400%
	Tensile Strength	14MPa	14MPa
EN	Force at break	6N	6N

EN ISO 374-1:2016
+A1:2018/Type B

KPT

EN ISO 374-5: 2016

VIRUS

Regulatory Compliance

Compliant with FDA 21 CFR 177.2600

Meet the Specification of EN420 & EN374

Manufactured under ISO 9001 & ISO 13485 Quality Systems
